

UBC Offshore Wind

ROV TECH TRAINING REMOTE OPERATED VEHICLES

A need was identified by our signatory contractors to have ROV Technicians as part of our training. The UBC Pile Drivers and Divers have worked with Northwestern College to acquire the training for ROV Technicians per the ADCL for Class II ROVs.

COURSE DESCRIPTION

- ✓ Marine Electronics - Fundamentals & Advanced
- ✓ Marine Hydraulics - Fundamentals & Advanced
- ✓ Safety and Rigging
- ✓ ROV Fundamentals
- ✓ ROV Operations

WHY CHOOSE US

The United Brotherhood of Carpenters spend \$250 million dollars a year on training to ensure our members and signatory contractors have the best and latest training demanded by industry.

Classes are taught at the Eastern Atlantic States Carpenters Technical Centers– Diver Center located in Sicklerville, NJ. Students are exposed to three different inspection-class ROVs.
